

Chris Girling cv

Personal Statement:

Now that I have finished my BA in English with Cultural Studies, earning myself a final classification grade of 2:1, I am looking to progress into a career in the media, whether it is a position in film and television or advertising and copywriting. Both my work on the degree, and those pieces that were undertaken independently, have helped me gain experience in both of these fields.

Once in these professions, I am well aware that being able to work as part of a team is vitally important. I have worked creatively in a setting like this many times during my degree and more notably on my A-level media course. However, further evidence of this comes from my involvement in premier league wheelchair basketball, and my coaching of the lower levels, which at times takes a great deal of multi-tasking, leadership and pre-planning. BA in English with Cultural Studies - 2:1

Aside from my educational qualifications I am also a qualified Level 1 Coach for Wheelchair Basketball. This has allowed me to help young players to develop as well as improving my leadership skills. I am also a Level 2 Table Official.

Interests:

I'm interested in Wheelchair Basketball and currently play for the Essex Outlaws in the premier division.

While I am looking for work, I am filling in my time by improving my creative writing skills, this includes writing; poetry, short stories, songs and perhaps most interestingly screenplays. While these tasks are not specifically related to the field of publishing once again I hope they will help to aid my development in this area too.
